

ANNOUNCING G6

TRANSFORMING SINGLE-GAS DETECTION WITH CONNECTIVITY

G6 from Blackline Safety is the new standard in single-gas detection, helping you quickly and confidently respond to safety incidents.

The superior performance and vital data of G6 gives you a significant advantage in your fight to reduce your organization's incidents to zero. It empowers you to take informed action and get ahead of possible safety risks with instant visuals of high alarm rates and low compliance.

G6 is an innovative, cost-effective, must have solution for improving safety and operational performance in the modern industrial workplace.

BUILT-IN CAPABILITIES:

Reliable direct-to-cloud cellular connectivity to the Blackline Live platform

Locate people and devices quickly via GPS during incidents and daily sync

Single gas detection for H2S, CO, O2 or SO2

Rechargeable battery with up to one year battery life

Reduce false alarms and support STEL monitoring with higher precision

Automatic updates several times per year make your device even smarter over time

Improve safety, compliance, culture, and performance with data-rich reporting

Blackline Safety protects **100,000+** workers in **60+** countries

ALL-IN-ONE CONNECTED SAFETY SOLUTION

KEY BENEFITS

Fastest incident response time

- ✓ Locate workers when an alarm is triggered via GPS and cloud connectivity
- ✓ See and assess what's happening on the ground for faster, informed responses

Reduced costs and improved efficiency

- ✓ Four-year life span lasts more than twice as long as disposable, single-gas devices
- ✓ Reduce IT infrastructure costs, easily find lost devices, and save money on replacement expenses through wireless connectivity
- ✓ Minimize the frequency of false alarms with higher precision
- ✓ Choose from multiple buying options to maximize your CAPEX or OPEX budgets

Better safety and compliance

- ✓ Purpose-built reports and accurate data sets with easy visualization
- ✓ Modify workplace processes and training with analytics and insights to get ahead of safety risks
- ✓ Manage compliance through single-source data accessed from anywhere, anytime on any web-enabled device

DID YOU KNOW?

G6 supports your sustainability goals—and lowers costs—with devices that last four years or more, versus the two-to-three year lifespan of competitive products.

Blackline Safety is a global connected safety leader that helps to ensure every worker gets their job done and returns home safely each day. Blackline provides wearable safety technology, personal and area gas monitoring, cloud-connected software and data analytics to meet demanding safety challenges and increase productivity of organizations with coverage in more than 100 countries. Blackline Safety wearables provide a lifeline to tens of thousands of men and women, having reported over 178 billion data-points and initiated over five million emergency responses. Armed with cellular and satellite connectivity, we ensure that help is never too far away.
